- Amy Barrier – Nurse Practitioner Prism Health North Texas

When: March 24th at 6:00 pm - 7:30 pm CST

Location: Streaming live on PHNTX Facebook and YouTube page

PrismHealth
NORTH TEXAS

For women to be physically and emotionally healthy, their sexual and reproductive health cannot be ignored. Constitutional protections alone have not ensured accessible and affordable health services for all women, so it is up to individuals to increase their understanding of their rights.

Join us in a virtual conversation about women's sexual & reproductive health. The goal is for YOU to increase your knowledge on why you would take and how you would access PrEP and nPEP, normalize and destigmatize conversations around your and your partner's HIV status and STI history, and learn how to identify and combat intimate partner violence. Attendees will be empowered to become more comfortable with condom negotiation, disclosing status, and setting rules for consent.

The speakers are eager to answer your questions. Please feel free to send them in advance to Brandon.Corporus@prismntx.org.
